PROJECTS

E-COM WEBSITE ⬀

- The e-commerce website project aims to create an online platform that enables users to browse, search, and purchase products from various categories.
- The e-commerce website consists of two main roles: **admin** and **user**. Admins will possess additional privileges, allowing them to manage product listings, orders, and user accounts. On the other hand, users can create accounts, add products to their shopping cart, securely make **payments**, and track their orders.

Project Sahyog ⬀

- Project Sahyog is an online platform for sharing and discovering student projects in Indian universities/colleges to promote innovation and collaboration.
- It's a MERN stack Application. The key features of the project include the ability for students to submit their projects and have them displayed, a real-time chat system for seamless collaboration, user profiles that facilitate peer review, and an admin panel for content moderation.

CODING PROFILE

- Codechef 4 Star (950+ problem solved) ⬀
- GeeksforGeeks (900+ problem solved) (630 days streak) ⬀
- Hakckerrank Python (5 Stars) ⬀
